Our Story

Spirits of old town is a sister company to Church Street Cafe, located just a block from here behind San Felipe church. We have a long running tradition of serving the Old Town community. With a longtime vision of opening the very first and only distillery in history in old town Albuquerque, we finally brought that vision to a reality. This distillery is built in one of the oldest buildings in the old town ABQ area. We focused on keeping most of it's original structure. We have a vision and dedication to produce quality in-house boutique artisan craft sprits. We carefully built the distillery room with one key objective, and thats small batch quality sprits. You'll find in each bottle the unique handcrafted smoothness of each product produced outta here. We've added the most up to date RO system to give it the quality of water sprits deserve! Come on in relax, have a sip and enjoy our cocktails! From Spirits of Old Town, we say cheers to you all!
